Passionately Committed

to improving healthcare—from start to finish

Our Vision: Healthy people interacting with a safe, efficient, consumer-friendly healthcare system.

Our vision for healthcare is simple. We want healthy people interacting with a safe, efficient, consumer-friendly healthcare system. At Perot Systems, we're committed to achieving this vision by combining the right people, processes, and technologies to truly transform healthcare.

Our full range of healthcare solutions address the fundamental processes necessary to support the delivery of patient care—administrative, financial, and clinical processes. We've spent almost 20 years perfecting business process and technology solutions that you can trust.

Trusted Solutions for Proven Results

Solutions for hospitals and health systems: We provide client-focused solutions that deliver clinical transformation, financial optimization, and technology innovation. Our comprehensive revenue cycle solutions, integrated IT, and business process services help you align technology with your business strategy to achieve improved patient safety and quality, cost-effectively.

Solutions for physician practices: We help healthcare providers increase physician practice performance and align clinical and administrative strategies, while improving the quality of patient care. We provide practices with new capabilities to enhance revenue cycle performance, implement an Electronic Health Record (EHR), and transform clinical processes.

Solutions for healthcare payers: We provide high-quality and cost-competitive IT and business process services to enhance operational performance, increase member satisfaction, and decrease administrative costs.
